Brainstorm & Idea Prioritization:

This session focuses on exploring ideas to analyse India's Union Budget data from 2021 to 2024. Team members brainstorm key sectors, schemes, and ministries based on budget allocations. Ideas are discussed to identify spending trends and priority areas. The most impactful and relevant insights are shortlisted for visualization. These prioritized ideas help in building clear dashboards and meaningful data stories.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Union Budget Analysis 2021 - 2024

Analyzing India's Union Budget allocations from fiscal years 2021-2024 to uncover insights into government spending across various sectors and ministries. Connecting the data with Tableau to visualize budget trends and perform comprehensive analysis.

- Connect DB with Tableau
- ✓ Create dashboards & Stories
- ✓ Analyze budget trends

1 Data Collection & Tableau

> Begin creating initial visualizations to uncover trends in budget allocations.

2 Dashboard & Story

Creating dynamic Tableau dashboards and data stories to illustrate budget allocations and trends. Embedding them into a Flask-based web application for interactive insights.

🕒 1 hour

Performance Testing

> Optimize dashboard performance to handle queries effectively with large datasets.

Web Integration with Flask

> Embed dashboards and interactive stories in a Flask-based web application for seamless access.

Step-2: Brainstorm, Idea Listing and Grouping
